omnee.m

DISCOVER THE
omnee.m

A MANUFACTURING MILESTONE
IN AUDIO SPEAKER TECHNOLOGY

omnee.m is an all-in-one wireless speaker system with built-in amplification and the ability to stream from any source, anywhere you are, built to make the listening experience more seamless.

By breaking free from established design conventions and rethinking how each part of the speaker should look and function, **omnee.m** is the speaker that breaks all barriers, with its superb acoustics, in a sleek design.

The entire enclosure geometry is made as a single, monolithically, unified resonance and vibration-free body. The solidity is unreachable by the traditional joined enclosure.

Liberated from the conventional mass manufacturing constraints, **omnee.m** is aiming for absolute performance.

- ▲ omnidirectional 360° sound radiation without compromising sound quality
- ▲ sound dispersing acoustic lens cone designed for optimized sound distribution
- ▲ 1-way single full-range downward firing system in a ported box
- ▲ high-end speaker driver with a nearly flat frequency response and absolute accuracy
- ▲ resonance and vibration-free body
- ▲ active (class-d + dsp)
- ▲ stereo pairing and multiroom audio integration
- ▲ versatile input and streaming options
- ▲ touch-sensitive user interface
- ▲ powerful battery power pack & solar charging interface
- ▲ hidden wireless smartphone charger

DESIGNER Jurica Huljev, Synthesis for ONE.618

WEIGHT 24kg

DIMENSIONS (H X W X D) 53 cm x 31 cm x 29 cm

COLORS

- ▲ Standard model – Natural Concrete Gray
- ▲ Special Edition A – Carbon Black
- ▲ Special Edition M – Mineral White
- ▲ Custom colors available for all options
